SUMMARY

Lead Motion Designer & AI Creative with 7+ years producing performance-driven motion design and AI-generated visuals for Tier-1 markets (US, Europe, Asia). Built and led creative teams shipping 50+ ad creatives a week, helped scale a consumer app to 1M+ users, and delivered 30+ ad creatives scaled on budgets from \$10k/video. Combines full-cycle motion craft — animation, typography, sound, color — with hands-on adoption of generative AI tools (Midjourney, Runway, Kling, Krea) into live production pipelines.

SKILLS

Motion & Design: Motion Design, Motion Graphics, 2D/3D Animation, Typography Animation, UI Animation, Illustration, Concept Development, Art Direction, Storyboarding, Video Production, Video Editing, Color Grading, Sound Design

AI Tools: Generative AI, Midjourney, Nano Banana, Krea, Kling, Seedance, Runway, ElevenLabs, Topaz

Software: Adobe Creative Cloud (After Effects, Premiere Pro, Photoshop, Illustrator), Figma, Procreate, Cinema 4D (Octane), ZBrush, Nomad Sculpt

Leadership & Strategy: Team Leadership, Team Management, Creative Direction, Mentoring & Onboarding, Production Pipeline Management, Performance Marketing, A/B Testing, Trend & Competitor Research, Stakeholder Presentations

EXPERIENCE

Freelance — Motion Designer

September 2018 – Present

Remote

- Delivered full-cycle motion design — script through final edit, sound design, and color grade — for brand and performance-marketing clients
- Produced performance ad creatives for Tier-1 markets (US, Europe, Asia) across Instagram, TikTok, Facebook, and Google Ads
- Animated typography, icons, illustrations, and UI elements across web and app platforms
- Adapted creative concepts across formats and platforms, iterating fast on top-performing assets
- Met high-volume, tight deadlines without compromising output quality
- Folded generative AI tools (Midjourney, Runway, Kling, Krea) into personal workflow to speed up ideation and asset generation

495 Denim — Content Creator

September 2025 – June 2026

- Produced motion and graphic design for ad creatives across Instagram, TikTok, Facebook, and Google Ads
- Designed print/apparel visuals and packaging concepts
- Led seasonal concept planning and photo retouching
- Analyzed audience, competitor, and trend data, delivering monthly performance reports
- Sourced and briefed UGC creators, reviewing deliverables for brand consistency

Glam App (getglam.app) — Lead Motion Designer / AI Artist May 2023 – February 2024
Remote

- Led a creative team of 5 in-house motion/graphic designers plus 5–7 outsourced creators, delivering 50+ creatives a week
- Built and scaled the team's production pipeline, raising creative quality while simplifying scaling
- Helped grow the app to 1M+ users by sustaining high-volume, high-performing ad creative for Tier-1 markets (US, Europe, Asia) across Instagram, TikTok, Facebook, and Google
- Evaluated and integrated new generative AI tools into the product's creative workflow
- Directed trend and competitor research, turning references and moodboards into actionable briefs for team and vendors
- Owned QA, deadlines, and final creative sign-off; onboarded new hires and ran weekly stakeholder report-outs

Prequel App (prequel.app) — Marketing Motion Designer October 2021 – May 2023
Moscow

- Shipped 30+ ad creatives scaled with budgets from \$10k/video across Instagram, TikTok, Facebook, and Google Ads
- Sustained output of 3–6 ad packs a week with zero missed deadlines
- Partnered with product and analytics teams to design and read A/B tests, directly informing creative iteration
- Originated new creative concepts and viral formats, several of which were adopted as native product features
- Maintained a structured creative archive with consistent naming and version control

BBK Group — Broadcast Designer February 2020 – August 2021
Moscow

- Produced on-air motion graphics for live television broadcast
